

**NOTICE TO ALL CONTRACTORS & SUB-CONTRACTORS
DOING WORK IN SAN JUAN COUNTY**

***All permits issued are
Approved with Conditions***

BEFORE YOU START – Be sure that all stormwater BMPs are in place. Failure to do so will result in the inspection being denied and each follow-up inspection will require a \$70 fee to be paid if they are not in place by that inspection.

The redlines included by the plan reviewers on the “job copy” plans are **requirements for the project and must be adhered to in order to pass inspections.**

The “job copy” plan-set and inspection card must remain onsite so that the inspector can refer to the plans and sign off on required milestones during inspections.

Inspections can be scheduled online at: sanjuanco.com/591/request-building-inspection (be sure to select the date – if the date does not appear in your e-mail confirmation, your inspection has not been scheduled), or by calling the inspection hot-line at (360) 378-6270 – be sure to have the permit number, site address, best contact name and phone number, and type of inspection to leave on the recording. Inspections requested by 3 pm will typically take place on the next scheduled inspection date.
