S.J.C. DEPARTMENT OF

Julie,

Thank you for keeping in good contact and updating us all.

JUL 10 ;
COMMUNITY DEVELOPMENT

I met with Donny Gault and a small number of neighbors, it was a pleasant meeting and it was easy to understand Donny. I found him to be a pleasant and sincere man just trying to run a business.

As you may have heard there was another meeting with Donny at the Eastsound Fire Station.

As a result I have an additional concern that I would appreciate the county addressing.

In case of a fire or similar emergency around the proposed propane tank installment, there is no safe evacuation for residents. Looking around at my neighbors I see elderly, middle age, young mothers with babies and children of all ages. I have a friend that visits in her wheel chair and I perceive this population as somewhat vulnerable.

I understand there is not only no county access that could safely get residents evacuated the Fire Department does not have the man power to assist with such a vacation.

I would like to suggest this is a significant issue for the county to address before moving forward with this permit.

Thank you for the work you and your department do.

Gratefully,

Ethna Flanagan
