Dear Members of the SJC Planning Commission,

Please consider this e-mail a public comment received for the meeting of the Planning Commission on March 16th, 2018.

My comment is in regards to the second draft Vision Amendments dated March 1, 2018.

Please add a new standalone section to the Vision dedicated to Agriculture. Existing references to agriculture are scattered between several of the Vision sections but there is no statement that accurately reflects the importance of agriculture to our community. There were abundant comments during the interviews, pop-up studios and workshops that demonstrate the community's desire to take bold measures to strengthen our local agricultural economy. Our updated Vision should reflect that desire.

Thank you for your consideration.
