Hi,

I am writing in support of the proposed San Juan County marijuana ordinance.

Thank you for the time and effort required to craft a comprehensive and much needed ordinance.

The only thing I would add to it is some wording for Hemp growing and processing, since it is very similar in appearance, causes the same odor and water requirements, and also because the state has decided not to require THC content testing this year in Hemp due to testing capabilities/capacity (it is supposed to be low in THC), but I know Hemp is in the Agriculture area and probably can't be addressed with this.

Best,
Juliene
