Subject: Vacation Rental

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I sent a letter to every board member and now I'm sending this to the general counsel.

Please try to be open-minded think of new ways of solving problems.

Try and realize that by destroying one business you will destroy them all.

Think about what you're doing before you act, what may seem popular at the time may not be good for the population as a whole, if you look at what we are as a community we our a tourism community and everything revolves around the tourist being able to come here and stay and enjoy this amazing place.

By removing vacation rentals you remove the ability for people to come and visit.

The small businesses that rely on them go out of business jobs will decline people will leave, schools will get smaller the community will die. Just like many of the small communities along route 66 died when the tourist no longer came through their area.

Thank you

Deb Fritz
