Subject: Vacation Rental Moratorium

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Keep the SJIs as natural as possible. Vacation Rentals increase population, pollution, water consumption, traffic, nature trampling, and ultimately the overall deterioration of lifestyle and the features that make the SJIs unique. It is similar to the question of "let's build a bridge from the mainland " to increase the ease of usage and exposure...Well enforce zoning and avoidance of short sighted thinking and reimbursement, will serve our community and its special characteristics for generations. Please think of the big, longterm, future, of which we all are the stewards.

Thank you for your service and concerns,

A. Tom Collins
