Adam Zack
Planner III
Department of Community Development
San Juan County, WA

To whom it may concern:

As a nearby homeowner in Cape St Mary Estates and concerned resident, I am writing in full support of the staff recommendation to NOT re-designate the above-referenced (Jean Michl estate) property. The designation of this 43.47 acre parcel as forest resource is consistent with the policies of the Plan update and surrounding forest resource lands. Our concerns for any changes in designation of this land include the short supply of water in an area where water resources are scarce and often intruded by salt-water, as well as the precedent a re-designation could set for other possible changes and/or residential development. I strongly believe that zoning designations should be upheld to protect and preserve existing land systems and resources.

Thank you for your careful consideration.

Sincerely,
Elizabeth Landrum
