To Whom It May Concern,

Please submit our comments below re: TPN's 271223009000 271223011000, Request #18-0008

We agree with EPRC's recommendation to **NOT** include request number 18-0008 in the proposed UGA expansion plan. We agree with the EPRC's initial traffic assessment and that changing the designation would put an undue burden on the infrastructure that supports this busy neighborhood. However, in our opinion, we are not convinced that punching through a road on Bartell or adding additional access to the proposed parcels as suggested will solve or lessen the infrastructure deficit in this area. Should the request be considered now or for the future, we hope that other factors will be considered including but not limited to EWUA, ESWD, OPALCO as all have voiced concerns for providing services as growth expansion outstrips resources. Moving the boundaries of the UGA changes the rural character of this neighborhood, puts undue pressure on its current residents, and would forever alter the landscape.
