The Orcas Senior Center is considered a neighboring property owner to the site of the subject-referenced land use designation change. As such, we were invited to provide public comment to the proposed change. The due date for comment was June 17, 2021. However, we received this postcard (see attached) on June 18, 2021. Thus, the due date for comment had passed by the time we received the postcard, giving us no time at all to comment. The Seattle cancellation date on the postcard was June 10, 2021. So, even if the card had been delivered sooner, there would still have been very little time to review the materials and compose thoughtful comments since the card left Seattle only on June 10th. We urge the SJC Planning Department to extend the comment period to allow adequate time for public input.

Thank you for your consideration of this matter.
