Dear Planning Commissioners,

I am a 30 year resident of Lopez island. I own a home and in the last 25 years struggled to raise my daughter here as a single mom and renovate my home. By working 3 jobs concurrently, and learning to build, I was able to do so successfully. However, I am deeply concerned about the tourism that is overrunning our islands and impacting the quality of life for hardworking Lopezians whose family ties to Lopez stretch back generations. We did not work so hard for so long to build a sustainable life here just to have it literally bought and rented out from under us nor to be so drastically changed by tourism that our quality of life is deteriorating. What about water, ferry service and the ability of our grown children, grandchildren and family members being able to come and visit or even move here when needed? Please do not expand the vacation rental scheme. It certainly does not help our community and it is unsustainable.

Thank you,

Anamo Roloff
