Dear counsel members,

I am writing to oppose an increase in Vacation Rentals on Lopez island, where I reside.

In a time of stressed environment, aquifers, housing and peace and quite we do not need more short term rentals. I strongly believe more thought needs to go into planning before increasing the load on our home. Growth is not progress, just more of the same. Sustainability is progress. I believe VRs can happen in a way that truly supports the whole community and island, not just a few, and not people who live far away. VRs should be limited to residents of the islands and have strict rules on how to be gently on the island ecosystem.

Thank you.
