Dear San Juan County Council Members and San Juan County Planning Commissioners,

I hope you seriously consider adding the attached Climate Change Element to the current update of the Comprehensive Plan.

Friends of the San Juans has done the work to craft the Element. They organized the County's existing, but disparate, references to Climate Change and integrated them into one document. This gives stronger meaning to the words and the intent behind them: San Juan County's primary policy is to avoid increasing climate change.

Thank you.

Ms. Shaun Hubbard
