Dear Council Members,

Our County Councils, aided by the Planning Commission, have been adding language to address Climate Change within our county's documents for several years.

I strongly urge you to add the Friends of the San Juans Climate Change Element to our current update of the Comprehensive Plan. Each part is carefully referenced to commitments that the County has already agreed to regarding climate action in San Juan County.

Integrating the dispersed Climate Change Elements into one Comprehensive Plan Element makes sense to me, reflecting San Juan County's commitment to prioritizing Climate action.

Keith Wentworth
