Dear Ms. Guernsey,

Our County Councils, aided by the Planning Commission, have been adding language to address Climate Change within our county's documents for several years.

The [attached draft Climate Change Element](#) takes these dispersed segments and combines them in one place.

I strongly urge you to add this Climate Change Element to our current update of the Comprehensive Plan. There is nothing new in the attached Element. Each part is carefully referenced to commitments that the County has already agreed to regarding climate action in San Juan County.

Integrating the dispersed Climate Change Elements into one Comprehensive Plan Element makes sense to me, reflecting San Juan County's commitment to prioritizing Climate action.

Thank you.

Sincerely,
Jennifer Woodbridge
