Dear Lynda,

Please share my comments about adding the attached draft Climate Change Element to the current Comprehensive Plan Update.

Thank-you!

Janet Alderton

Dear Planning Commissioners,
Our County Councils, aided by the Planning Commission, have been adding language to address Climate Change within our county's documents for several years.

The attached draft Climate Change Element takes these dispersed segments and combines them in one place.

I strongly favor adding such a Climate Change Element to our current update of the Comprehensive Plan. There is nothing new in the attached Element. Each part is carefully referenced.

Integrating the dispersed Climate Change Elements into one Comp. Plan Element makes sense to me.

Please check it out!

Janet Alderton
