Dear Lynda and members of the Planning Commission,

I strongly urge you to add this Climate Change Element to the current update of the Comprehensive Plan. Each part is carefully referenced to commitments that the County has already agreed to regarding climate action in San Juan County.

Integrating the dispersed Climate Change Elements into one Comprehensive Plan Element makes sense to me, reflecting San Juan County's commitment to prioritizing Climate action. I strongly support the Friends of the San Juans' commitment to prioritize climate action. Their Climate Change Element can be read here, <https://sanjuans.org/wp-content/uploads/2022/06/Introducing-the-Climate-Change-Element-6jun2022.pdf>

I would like our county to lead the way in becoming intentional stewards of our natural world.

Thank you,

Michelline Halliday
